**1 穩定姿勢"dacco"坐墊**  
Best position "dacco" cushion

從初生嬰兒醫療中心的「嬰兒姿勢定位」得到啟發而開發的"dacco"坐墊。透過安定幼兒的姿勢，減低幼兒身體的負擔，令幼兒更為放鬆，又不會妨礙幼兒手足活動。

With the inspiration from the study of "Infant Positioning", Combi succeeded in developing a brand new "dacco" cushion which can support baby's head and body in a better position and make baby feels comfortable without obstructing the movement of baby's hands

**2 支撐腳**  
Supporting leg

3點式安裝方法以外的額外保護。支撐腳長度可因應不同車種作出調節。

This is the extra support beside the 3-point installation.

Length can be adjusted according to the vehicle seat base to fit and secure the installation.

**3 單觸式角度調節**  
One-touch angle adjustment

以調節杆輕鬆調較至3段不同角度。調節角度後不需重新調節汽車安全帶。

Using the reclining lever, you can recline the seat to 3 different angles by simple one-touch, and you do not need to re-adjust the belt length after each angle adjustment.

**4 附顯示器插扣**  
Buckle with color indicator

插扣片須左右對齊才能插進插扣座內。而插進後顏色顯示器會由紅色轉為綠色，以確保插扣片已經牢牢固定。此外，插扣片外層包以塑膠，以防止幼兒意外被曬熱的金屬部份灼傷。

The insert metals are designed to be matched before plugging into the buckle, and after plugging the color indicator will then turn to green from red, both of which are to ensure the buckle is secured firmly. The insert metals are coated with plastic

such that your child will not accidentally get burnt by any exposed metallic parts.

**超衝擊吸收素材Egg Shock**  
Ultra shock absorbent Egg Shock

由於幼童保護裝置是幼兒每次外出都會使用的工具，所以使用了舒適的物料Egg Shock，大幅吸收意外時的衝擊或是行車時傳來的震動。個別型號更附有Egg Shock α，其低反震Gel的特性將震動分散吸收，徹底保護幼兒頭部。

Child car seat will be used while going out by car and Egg Shock materials are used to absorb all kinds of vibrations and shocks when car is in motion. Egg Shock α is also available on certain models. Gel on Egg Shock α absorbs and disperse impact evenly to protect baby's delicate head.
